	NEEDS	COVERAGE	GAPS
Food Security	• Support for on farm livelihood activities	• **53** HH's received assistance in agriculture inputs • **2,182** HH's received assistance in GFD • **13,262** HH's received food assistance from WFP • **4,750** HH's received assistance for livestock	• In affected part of the district still the support is needed.
Health	• District is short of budget due to some extra mobile activities conducted by the district in flood/rain emergency situation, now facing difficulty in monitoring and supervision even in polio campaigns. • National program not cooperating with DHMT due to political influences. • National Program staff (LHW,LHS,drivers) not getting Salaries on timely basis due to this staff shows unwillingness in any activity done in district including Polio campaign which is a national cause. • Malaria program focal person not supervising properly immobility due to no POL support. • EPI Program is also facing same problem due to insufficient budget outreach activities are not being done in the district by vaccinators. • Cold chain issues in the district 27 ILR are out of order among 102 EPI centers, many HFs have no electricity, however PPHI authorities are taking many efforts but getting no results.. • MNCH Program needs improvement, FMOs should be facilitated by means of equipments and timely Salary provided to them • Need of ASV and ARV in the district.	• SO DEWS supports DHMT mobility by sharing his vehicle for monitoring and supervision. • SO DEWS taking efforts for the coordination in between National Program and DHMT but political influences are creating problems • DEWS WHO coordinating with Malaria program by means of Planning, Response in community and Health education in community. • DEWS WHO supporting vaccinators by means of transportation, training, awareness and identifying vacant pockets in the different areas of the district. • DEWS WHO Identifying and notifying and even giving possible solutions for cold chain issues in the district such as counseled PPHI authorities that they can use their budget for repairing of ILRs which are out of order in different BHUs, After counseling of SO DEWS WHO an NGO OSDI is ready to donate one ILR to the district for the BHU in their catchment area. • OSDI NGO is also supporting MNCH program by means of referring delivery cases by their newly recruited TBAs to MNCH center in RHC Ranipur. In this activity SO DEWS WHO played an important role TBAs were trained by MNCH FMOs with the permission of MS RHC Ranipur.	• Special funds or budget should be provided to the district to overcome their issues related to finance. • Some efforts or measures should be taken to face Political influences in the district. • Budget of EPI for repairing of ILRs and POL for vaccinators should be overlooked and should be arranged according to petrol rates per liter not a lump sum amount and should be given within time not in the end of year. • NGOs are willing to work in community with the support of DHMT. • Coordination meetings are now being focused to resolve the district health issues. • MNCH Program needs some technical support otherwise it is going into failure except 2 or 3 centers in the district .
