Subject: **No Objection Certificate (NoC)**

It has come to the notice of this office that Implementing Partners/Non Governmental Organizations are facing problem related to NOCs different layers for carrying out disaster related relief, rehabilitation and reconstruction work. Despite of having NOC from PDMA the district / Government line departments requires another NOC. It appears that the term 'NOC' at the district level have created confusion for government departments and NGOs alike. Similarly, some NGOs are reportedly not sharing the required information with the district administration which at times leads to lack of effective ownership of the line department for sustainability, cost effectiveness, accountability and duplication.

To accomplish common objective of serving the disaster affected population of the province, the relevant SOP from NOC mechanism is reiterated as follows;

1. The organizations after getting NOC from PDMA, shall share their work plans, progress or any other information with the district administration as well as with the line department.
2. The proposal shall be properly examined before vetting by the concerned cluster, co lead i-e UN agency and Line Department.
3. There is no need of another NOC after getting one from PDMA.
4. In case of non-compliance (sharing of information) with District Administration, the NOC of NGOs shall be cancelled by PDMA and organization may be stopped from continuing its activities.
